

Overview of NanoCellulose Capabilities

	Brief Description
Cellulose Sources	Kraft/Sulfite pulp, Ag-Fibers, Recycled Cellulose Sources
Nano Cellulose Structures	Microfibril Aggregates, Nanofibrillated Cellulose, Cellulose Nanofibrils, Nanofibers, Cellulose Nanocrystals, Nanocrystalline Cellulose, Cellulose Nanowhiskers, Nanocellulose, Cellulose Nanospheres
Structures - Applications	Nanocellulose Composites, Foams, Films, Coatings, Suspensions and Viscosity Modifiers, Water Absorbents
Nano Analytical Measurements	AFM, SEM, TEM, NMR, GPC
Routine Measurements	Water/Oil transmission, Strength Properties, Optical Viscosity, Thermal Properties
